

HoseReel 7

HoseReel 7

This seven stage hose reel greatly saves time when cutting hose. The most common types are always available at the cutting machine. Every stage (except for the bottom stage) can be swung out horizontally so that new roll can easily be inserted. The reel should preferably be placed 1- 2 m from the cutting machine.

HoseReel 7

Technical data:

Hose capacity	3/16" - to 1 1/4"
Max. load per reel	80 kg
Colour	Zinc plated

Dimensions:

Length	1270 mm
Width	1000 mm
Height	2230 mm
Weight	148 kg

Dimensions Reel:

Internal max. diameter reel (coil)	1010 mm
Internal min. diameter reel (coil)	250 mm
Height of the hose coil	max.300 mm

Designation:

Hose reel 7
Option, wheel kit

Part number:

9004-00-07
9004-01-21
