

InkJet marking system

An automatic marking system for writing part numbers, company label etc during the cutting process. It can be used in combination with AutoCut 5-32, CombiCut 4-25 or SemiCut 4-20CTS.

Advantages:

- Fast and simple operation.
- Big and plain display.
- The ink is dry immediately after application.
- Storage capacity of 1600 part numbers.
- Three languages are programmed; English, German and Italian.
- Automatic jet-speed and viscosity control.
- Automatic pump pressure control.

InkJet

Technical data:

Hose capacity	As the cutting machine it's used in combination with
Voltage single phase	100-120/200-240V/ 1,5/0.85A
Language on display	On request
Colour of ink	On request
Colour	Light grey

Dimensions:

Length	470 mm
Width	1055 mm
Height	310 mm
Weight	50kg

Designation:

InkJet J1000 S4 plus

Part number:

9080-01-35
