

# Internal skiving tool, IST

## Internal skiving tool

This skiving tool is used on all our skiving machines. It is used for internal skiving of spiral hoses with 3 - 6 reinforcement layers to cater for interlock fittings. The tool is adjustable to suit varying needs of skiving lengths and depths.

## IST, skiving tool

### Technical data:

Material	Steel SIS1672, Hardened
Adjustable skive length	10-35 mm
Adjustable skive depth	1-6 mm

### Dimensions:

Length	150-200 mm
Weight	0,3-0,5 kg

### Designation:

Internal skiving tool 3/8"  
5 mm internal skiving knife

Internal skiving tool 1/2"  
6 mm internal skiving knife

Internal skiving tool 5/8"  
Internal skiving tool 3/4"  
8 mm internal skiving knife

Internal skiving tool 1"  
Internal skiving tool 1 1/4"  
10 mm internal skiving knife

Internal skiving tool 1 1/2"  
Internal skiving tool 2"  
10 mm internal skiving knife, long
