

SemiCut 4-20CTS

Automatic hose cutting system

The SemiCut 4-20CTS is a fully automated hose cutter, using a high speed servo motor to provide fast and extremely accurate hose cutting operation. (down to +/- 1mm) The colour touch screen is available in different languages and has the storage capacity to hold up to 1200 part number configurations. Optional conveyer and hose reel systems are available to meet the demands of your product and operation.

Advantages:

- Very fast and accurate
- Storage capacity of 1200 part numbers
- No rubber waste in the hose
- Perfect cutting angle
- PLC-controlled
- Fast and simple operation
- Tool-set for 6 dimensions as standard
- Fast tool exchange, no adjustments necessary
- Adjustable feeding speeds
- Cutting tool completely encased
- Safety system to protect the operator
- Very high cut tolerance

SemiCut 4-20CTS

Technical data:

Capacity on cables, polyamide tubes and textile reinforcement hoses	8-20 mm
Servo motor	0,4 kW
Voltage single phase	230V/10A/50Hz
Cutting capacity/hour	up to 1000 pcs
Cutting device	Pneumatic cyl./ sharp knife
Hose reel dimension	600 mm
Air pressure	min. 6,0 bar
Colour	Light grey/dark grey

Dimensions:

Length	1900 mm
Depth	600 mm
Height	1300 mm
Weight	105 kg

Designation:

SemiCut 4-20, 230V single phase

Part number:

9079-00-02

Accessories:

- Conveyor 1 metre
- Conveyor 2 metre

9079-01-10

9079-01-20

Spare part

Knife 50x55x2,5

Part number:

9079-99-01
